PPG Industries is Proud

We're proud of many things at our Crestline glass fabricating plant. One is being part of the Richland-Crawford County community. Another is the high-quality fabricated glass that we produce there. And we're proud to be known in the community for dedication to the improvement of the quality of life in the area.

We're a concerned part of a growing community. PPG and its loyal employees are sharing their time, talent and money to maintain and improve the social, cultural and educational fabric of the area.

This involvement reflects our commitment as responsible corporate and individual citizens.

There's something else that we're proud of—and that's the Crestline High School **1983** graduating seniors.
